GROHE EcoJoy with water-saving function for reduced consumption

GROHE EcoJoy reduces water consumption by up to 50% without compromising on performance. Whenever you turn on your tap, you will enjoy a full jet of water while saving money nonetheless.

GROHE DreamSpray for luxurious showering

The GROHE DreamSpray technology turns your daily shower into a luxuriously relaxing experience. The advanced engineering of the shower head ensures a balanced flow of water from all nozzles, whatever spray pattern you choose.

SpeedClean: easy cleaning thanks to silicone nozzle

Indeed, the name says it all: with the SpeedClean technology, you'll have limescale removed from the spout in the blink of an eye thanks to a nozzle made of silicone. A quick wipe with your fingers is all it takes to remove any limescale deposits, saving you a lot of time and effort!

Coating protected by Inner WaterGuide

A strong insulation of the water guide inside the shower prevents its surface from heating up, so it will never be too hot for you to touch. At the same time, this serves to protect the finish of your GROHE shower, further enhancing its great durability.
