"Rainshower F-Series System 254"

Shower system with thermostat for wall mounting

- consisting of:
- horizontal swivable 450 mm shower arm
- exposed thermostat with Aquadimmer function
- allows change between:
- head shower Rainshower F-Series 254 (27 285 000)
- material: metal
- with ball joint
- rotation angle $\pm 20^\circ$
- hand shower Sena (28 341 000)
- adjustable in height with gliding element (12 140 000)
- metal shower hose 1750 mm
- GROHE EcoJoy** 9.5 l/min flow limiter
- GROHE TurboStat**
- GROHE SafeStop** at 38°C
- GROHE SafeStop Plus** optional temperature limiter at 43°C included
- GROHE CoolTouch**
- GROHE DreamSpray** perfect flow
- GROHE StarLight** chrome finish
- SpeedClean** anti-lime system
- Inner WaterGuide** for a longer life
- suitable for instantaneous heaters from 18 kW/h**
- minimum flow rate 7 l/min.

SANITARY WARE SPECIFICATION SHEET

Constant water temperature thanks to reliable GROHE TurboStat technology

Our precise control technology ensures an instant water flow at the desired temperature and keeps it constant irrespective of any fluctuations in water pressure or supply.

GROHE CoolTouch – never too hot to handle

Thanks to the GROHE CoolTouch technology, the temperature of the tap body will never exceed your shower temperature. Engineered with an integrated cooling channel separating the hot water supply from the outer surface of your thermostat, it is always safe for you to handle. This feature is especially important to protect children from scalding on hot tap surfaces, making your bathroom safely enjoyable for the whole family.

GROHE SafeStop (Plus) – double scalding protection at 38°C and (optional) 43°C

Great for homes with children, this safety feature is set at 38°C, preventing you from turning up the water temperature too high. If desired, higher temperatures can be selected by pushing the button. Optional for extra safety: the easy-to-fit GROHE SafeStop Plus limiter ensures that the temperature does not exceed 43°C.

GROHE EcoJoy with water-saving function for reduced consumption

GROHE EcoJoy reduces water consumption by up to 50% without compromising on performance. Whenever you turn on your tap, you will enjoy a full jet of water while saving money nonetheless.

GROHE DreamSpray for luxurious showering

The GROHE DreamSpray technology turns your daily shower into a luxuriously relaxing experience. The advanced engineering of the shower head ensures a balanced flow of water from all nozzles, whatever spray pattern you choose.

180° Comfort Zone Shower arm with 180° swivel range

Indulge in a special comfort zone with GROHE shower systems: this shower arm comes with a 180° swivel range, so you can direct the shower head to the center of your cubicle or tub, even when the plumbing is offset to the side, giving you more flexibility. Its length helps to create an extra large shower radius.

GROHE ALLURE

BEAUTY MEETS FUNCTION

Perfectly balanced proportions on the outside and technically advanced on the inside – Allure unites inherent beauty with unmatched performance. Cylindrical bodies rise from square and rectangular base plates adding to its minimalist appeal, while the collection offers a choice of two handle styles – a flat lever or a tri-spoke design – to meet your exacting requirements.

Faucets and fittings in this collection illustrate our commitment to unrivalled quality in the bathroom.

SANITARY WARE SPECIFICATION SHEET

Easy to clean thanks to the GROHE StarLight chrome coating

Just wipe the tap down with a dry cloth – the ultra smooth surface finish is scratch resistant and ensures a lasting luminous sheen. You'll save plenty of time cleaning while your tap always looks shiny and new.

SpeedClean – no limescale build-up on your shower head

Limescale is no longer an issue with our SpeedClean nozzles: thanks to the integrated anti-lime system, you will find the nozzles of your GROHE shower head super easy to clean. To remove any limescale residue from the flexible silicone nozzles, simply wipe them off with your hand.

Coating protected by Inner WaterGuide

A strong insulation of the water guide inside the shower prevents its surface from heating up, so it will never be too hot for you to touch. At the same time, this serves to protect the finish of your GROHE shower, further enhancing its great durability.

TwistFree – prevents your shower hose from twisting

TwistFree shower hoses are inspired by everyday experience: ever had to struggle with a twisted shower hose? TwistFree keeps your shower hose flexible and in shape, saving you that trouble.

Rain Spray – like summer rain on your skin

Enjoy the relaxing Rain Spray sensation on your skin. This soft and delicate spray pattern reminiscent of warm summer rain will soothe your body and mind, washing away any tension and stress.

GROHE EasyLogic – clear markings for easy handling

The markings are always visible, so you can immediately see which way to turn for your desired temperature or volume. Knobs and button are designed for easy and intuitive handling by the whole family.

SANITARY WARE SPECIFICATION SHEET

GROHE AquaDimmer for effortless water control

Switching between your bath spout and hand or head shower is easy with GROHE AquaDimmer, while also controlling the water volume in a single motion. The same handle also serves to turn the water flow on and off.

S-union with wall escutcheons for your thermostat

Your GROHE thermostat will be mounted on the wall with an s-union covered by an escutcheon, for a cleaner look and protection from scalding on hot surfaces. With their smooth finish, the escutcheons are super easy to clean.
