Components and Materials TUBING:made of a 32 mm diameter tube, seamless construction. Fixed to the wall plate through two gusset plates and by means of an M8x45 screw, which performs the functions of pivot axis of the swing grabbar. The swinging point is reinforced by means of a double tube. WALL PLATE:made of a 3 mm thick plate. Two 3mm thick gusset plates, welded to the plate, perform the function of supporting the pivot axis of the folding bar. The wall mounting plate also has 6 Ø 6.5 mm countersunk holes for fixing the bar to the wall. Compatible with the installation of the Mediclinics' grab bars BG0900. PAPER ROLL DISPENSER:made of a 10 mm diameter rod and welded to the crosspiece		
General description Safety vertical swing grab bar with a built-in toilet paper holder, made of a 32 mm diameter tube that provides rigid support where it is needed -on one or both sides of the toilet. It consists of a "U" shape tube, a paper roll holder and a heavy-duty wallplate, 3mm thick, with 6 attachment points. Safety swing-up position that locks the bar in vertical position, for when not in use, preventing accidental collapse. Designed to increase accessibility and safety for people with a variety of disabilities or mobility difficulties, these grab bars are ideal in public handicapped toilets, in private homes, assisted living facilities, hospitals, and nursing homes. Optionally, they have a kit to avoid electrical conductivity (code KA0060). Wall mounting bolts and screws for brick wall included		

Note:

* All information of the above is the reference only. No prior notice is made if any changes.

 GRAB BARS AND ACCESORIES FOR A BARRIER-FREE WASHROOM	
MEDIEPOXI/ MEDINOX	Vertical swing grab bar
 <p>BG0800 y BG0850 White finish</p>	 <p>BG0800C Bright finish</p>
	 <p>BG0800CS y BG0850CS Satin finish</p>

Fix the swing-up grab bar to the wall through the 6 holes of the wall plate, using the screws provided and taking into account the distances of the points indicated by an "S" in the following figure:

It is not recommended to install the Mediepoxy line bars in places where they may be in direct contact with water, in damp and/or chlorinated environments.

Mediclinics is not responsible for corrosion that may appear on the bars caused by abrasion on the anchorage points because of an improper installation.
