Components and Materials <ul style="list-style-type: none">Thermoplastic SAN container, 3 mm thick, fumé colour. It is mounted on the wall by means of 4 wood screws with their corresponding 5 mm wall plugs (the lower ones attach the dispenser, whilst the upper ones fix it to the wall) (screws and wall plugs are provided). It can be filled with commercially marketed all purpose liquid and lotion hand soaps and synthetic detergents.White ABS top filling lid. To refill, the lid is opened using a standard mediclinics ® key supplied.White ABS push-button.Anti-dripping and anti-corrosion valve. Design based on a polyamide piston with 2 elastomeric toroidal gaskets, silicone blocking pivot and stainless steel ball to ensure tightness.Stainless steel AISI 302 springs.Liquid soaps allowed: All, except for surgical soaps. Operation <p>Press push-button manually to dispense a measured amount of liquid soap. Valve is operable with one hand, without tight grasping, pinching, or twisting of the wrist.</p>																

Note:
