## YOUR SAFETY. OUR PRIORITY.

### 01 SAFETY-LOCK

It never gets too hot with us around. Our Safety-Lock maintains water temperature at 38°C, promising a safe shower experience for everyone.

### 02 THERMOCOMFORT

Trust is built from our consistency. We promise a constant and invigorating shower experience every single time.

### THERMOSAFE

It helps to be prepared for the unexpected. Our auto shut-off function caps water temperature at 49°C and shuts off when there is a disruption to the cold water supply.

### 03 COOLSHIELD

We like to play it cool. That is why our faucets are designed to stay cool at all times, preventing any instances of accidental scalding.

## FORM & FUNCTION

### 04 SPACECREATE

Clever design at times, works like magic. The same mixer now holds your toiletries like how it is meant to be.

### 05 VOLUME CONTROLLER WITH INTEGRATED DIVERTER

Can't make up your mind between a hand shower or a bath spout? Alternate between the best of both worlds with a turn of a handle.

### 06 ECO-LOCK

We take less is more rather seriously. That is why our mixer is preset to run at 50% water capacity but you can always boost your shower experience with a touch of a button.

### WATER SAVING

Water saving is automated as it should be. TEMPTACION regulates the desired water temperature every time before you use it.

### 07 ERGONOMIC HANDLE

Get a firm grip when it gets wet and wild. Our specially designed anti-slip wing allows you to manoeuvre the handles with ease when you adjust the mixers.
